MONEY, STOCKS AND BONDS. Gold Shipments Have No Effect-Strong Tone of Yesterday's Market.

NEW YORK, July 19 .- Money on call was easy, ranging from 3 to 5 per cent., the last loan being made at 3, closing offered at 3.

Prime mercantile paper, 5@7 per cent. Sterling exchange dull but firm at \$4.8434 for sixty-day bills and \$4.89 for demand. The total sales of stocks to-day were 138,-

026 shares, including the following: Atchison, 8,115; Delaware, Lackawanna & Western, 22,252; Louisviile & Nashville, 4,002; Northern Pacific preferred, 5,825; Oregon Transcontinental, 3,390; Reading, 5,500; St. Paul, 19,945,

The selling movement of last evening. induced by the order of \$1,000,000 gold for export, was of extremely short duration, as it began and ended within the half-hour of business left out of the afternoon. This morning there was nothing to be seen of it, and prices at the opening here were up from 1s to 5s per cent., although London figures were rather heavy. The shipment of gold could only affect the values of stocks and bonds in case of a scarcity of money here, and in view of the receipts of fands from the interior and the heavy expenditures of the vernment, which are stated at about 50, 000,000 over its receipts. So far this month there is a general expectation that the bank statement of to-morrow will show an entirely different state of affairs from that of last week. The suspension of specie payments in the Argentine Republic and in Uruguay is expected to do away with the necessity for gold there, and the feeling in London is reported as much easier, to which the action of the governors of the Bank of England largely contributed. London houses were not sellers of stocks today, and some purchases even were made for foreign account, which, with the better outlook for the passage of the silver bill, gave the "bears" little to work upon this morning. Advices from the West also indicated a better state of affairs in that section as regards the probability of a settlement of the existing railroad differences. Sterling exchange was higher, but several firms mentioned as likely to ship gold said they would not do so, as no large remit-tances are called for and exchange is as yet cheaper than gold except on large remittances. The sellers of yesterday afternoon, therefore, were looking for their stock again this morning, and while there were few other buyers the demand was brisk, and especially for Lacka-wanna, St. Paul and Atchison, though the further gains over the opening prices were generally slight. Toward noon the trusts again loomed up and became the features of the trading. Sugar displayed some of itsold-time animation and strength, moving up about 3 per cent., followed by Chicago Gas. Other stocks followed later, and Louisville & Nashville, New England. Northern Pacific preferred and some others were prominent for the advances made. Another engagement of \$500,000 gold for export in the last hour failed to have any appreciable effect, and the market closed dull but firm to strong at the best prices of the day. There were several sharp movements among the specialties, and the Chicago & Eastern Illinois stocks were conspicuous with Mobile & Ohio. The list this evening is almost invariably higher and Chicago & East Illinois preferred is up 2 per cent., the common 11s, Louisville & Nashville 114. Northern Pacific preferred 11s, Mobile & Ohio 114 and Rock Island, Missouri Pacific, New England and Lacka-

wanna 1 per cent. each. The railroad bonds market was more animated, and for the first time in weeks the total sales extended to above \$1,000,000, while the Mobile & Ohio fours and Mackinac & Marquette land grants were active features. The general list was only steady to firm, but Kansas City & Omaha firsts rose 2, to 88, and San Antonio & Aranzas Pass eighty-sixes 2, to 77. There were a few

unimportant losses. Government bonds were dull and without feature. State bonds were entirely neglected. Closing quotations were:

TRADING AT CHICAGO.

Heavy Realizations Cause a Break in Grain Prices-Pork Unsettled and Irregular. CHICAGO, July 11 .- A very fair wheat business was transacted, but prices were lower. The opening was quite strong, and 14@12c higher than yesterday's closing, but ruled weaker soon after the opening, and prices steadily declined 118@112c, then improved, declined again, and closed about **S@11s lower than yesterday. The news was generally favorable for holders, foreign markets all ruling strong, and higher. Crop news continues to come in bad, but there was general realizing, and with the new wheat just commencing to move opera-tors did not care to be loaded with much long wheat. In corn a large trade was again reported. Opening sales were 18@14c below the closing prices of yesterday. The government report being rather bearish, the market bulged up 12@5sc. Early advices from the interior were not very favorable, very little rain being reported. The advance brought out a good deal of long property, better reports coming in with some selling orders from Kansas, where rain was reported. Ship-pers sold freely, as also did New York and St. Louis, and prices broke 34@7sc, ruled steady and final quotations were 38@120 lower than yesterday. Oats were fairly active, but unsettled. The opening was strong and first sales for the active months were at 14c advance. A further advance of 12@34c was recorded, but on the bulge offerings increased and about all the advance was lost, the market closing easy at almost inside figures. In pork a little more business was transacted. The feeling was unsettled. Some deliveries ruled higher and others lower. A moderate lard trade was reported. Early the market was a trifle stronger, later a weak feeling was developed and prices ruled .0212@.05c lower. and the market closed rather steady. Short-ribs trading was moderately active, early sales made at .0212 @ .05c decline, but this reduction was quickly recovered. Later the feeling was easier and the advance was lost. The leading futures ranged as fol-

DUN & CO.'S WEEKLY REVIEW.

Hopeful Reports from All Quarters-Financial Outlook Not So Clear.

NEW YORK, July 11.-In spite of the midsummer duliness, aggravated this year by exceptionally hot weather, the volume of business continues larger for the season than in any previous year, and in all quarters high hopes are stimulated by excellent crop reports. The Bank of England lost \$2,160,000 gold last week; the Bank of Germany, \$2,490,000, and the Bank of France, \$1,245,000-in all, \$5,895,000 in a week-and it has been decided to call over \$5,000,060 gold from this country, the first shipments being to-day. With scanty reserves here on which to begin the fall movement, and money tight at Boston, active at Philadelphia and in sharp demand in Chicago at 6 per cent, on call, the prospect is less clear than it has been, though rates here are comparatively

From many Northwestern cities special eports show distinct improvement in trade because of crop prospects, which St. Paul calls the best for years. Yet prices of wheat have advanced 11sc on sales of 15,-000,000 bushels, corn 17sc on sales of 17,000,-000 bushels, and oats 12c, while cotton is unchanged, with moderate dealings. Hogs and lard are higher, with potatoes and eggs, but oil is 2c lower, and the absence of buyers causes disappointment in coffee, though prices are held. Slow consumption of sugar is also noticed. But the general average of prices has advanced fully 1 per

The more important branches of manufacture show hesitation. Wool receipts are large at Boston, but manufacturers do not buy freely. At Philadelphia dullness reigns, and Western markets are weaker, though still too high for the views of most manufacturers. No chance is seen for improvement in prices of goods, and the heavy imports are expected to keep prices down for the rest of the year. In the iron business the buoyancy anticipated at Philadelphia does not appear there, and here pressure to realize keeps the market weak. Pittsburg notes no loss in price, but slower movement. The leather industries are in better shape. Coal is dull and weak, the recent advance being principally on paper, and the half year's output being within 1,000 tons of the output last year. Copper,

Reports from all quarters are hopeful.

tin and lead continue strong.

Midsummer dullness prevails at Boston, increased by monetary stringency, and at Philadelphia and Pittsburg by the fact that higher wages have been conceded to iron-workers, though higher prices for products do not seem obtainable. Chicago reports a larger movement than last year's in all grains and meats, in wool and in dry goods, with easy and prompt collections, a very good trade in clothing, and better than last year in boots and shoes. St. Louis finds trade above the average, extreme hot weather having passed, but at Kansas City trade is light and collections poor because of the drought. Milwaukee has a heavy local trade, Omaha a large trade and bright prospects, and Minneapolis a strong-er market for flour, while the lumber convention has advanced prices of low-grade lumber \$1 per thousand. At Detroit travelers report good fall orders, and at Cleveland all trades are better than a year ago. The glass-works are closed at Pittsburg. but stocks moving fairly, and a scarcity of miners is felt in the coal business there. The traffic of railroads is still very large for the last week and June about 8 per cent, and for the month about 11 per cent. above last year's, while the few reports for July show still larger gains. Receiverships for the half-year covered but \$47,000,000 of stocks and bonds of 1,380 miles, while foreclosures for the half year covered \$92,000,000 of stocks and bonds and 1,930 miles of road. The steady growth of the country is illustrated in national bank reports, showing an increase, since 1880, of 66 per cent. in number of banks, 87 per cent. in deposits and 90 per

cent. in loans. The business faitures occurring throughout the country during the last seven days number 197, as compared with 199 last week. For the corresponding week of last year the figures were 209.

INDIANAPOLIS MARKETS.

Market firm at yesterday's prices.

Trade Moderately Active with Steady Prices Ruling. INDIANAPOLIS, July 11.

In most departments trade dragged a little to-day and the present quiet tone may be looked for during the next six weeks. Prices as a rule are steady in tone. Poultry is higher, advancing 12 cent per changed. Raspberries, both red and black, are off the market. Blackberries are in light supply and ranging high in price. New potatoes are scarce and prices are up fifty cents a barrel. Staple groceries carry a firm tone in spite of the predictions that there would be a break in the market after July 4. Dry goods men report something doing in the way of replenishing broken stocks, with prices firm. The flour market is more active, with no improvement in prices. The bide market and the leather market, as well, are both active, firm prices prevailing. Provision men are doing a good business in a jobbing way, smoked meats especially ruling firm at our quotations. Other markets are without special feature.

The whole market was stronger in its tone to-day, even corn falling into line with wheat and oats which have been in the lead of late. Track bids to-day ruled as follows:

Wheat-No. 2 red, 8512c; No. 3 red, 80@ 82c; rejected, 68c; unmerchantable, 50@60c; July, 85c bid. Sense About the Mugwump.

Chatter. I tell you, dear reader, that the mug-wump and all his works are vain. In essence the mugwump is wrong. You would not think of reforming your household by going across the street and stoning your home and family, or by gossiping among your neighbors. You would devote yourself to the task within doors. The political reformer must do the same thing. Prints—American fancy, 6½c; Allen's yourself to the task within doors. THE

DAILY, SUNDAY and WEEKLY

The Most Complete Newspaper in all Departments in the State of Indiana.

No newspaper in the West is more widely or more favorably known than the Indianapolis Journal. By the display of enterprise and strict attention to the wants of the reading public, during the great campaign of 1888, it has taken a leading position among the most prominent journals of the country, and is certainly among the best. Among the newspapers of the State it is pre-eminently the best, and Indiana readers can nowhere else find what they want in the way of State and local news. It circulates largely in every county in Indiana, and has correspondents in every town and village of importance. Its market reports are prepared with the greatest care possible, and no pains or expense are spared to make them accurate and absolutely reliable. It is the only newspaper in the State owning and publishing all the news furnished by the two great press associations (the Western Associated Press and the United Press), in addition to which it furnishes an abundance of special service from all the principal cities of the country. It has been, and will in future be, the aim of the publishers to make the Indianapolis Journal a perfect and complete newspaper, deficient in no department or particular. The paper challenges comparison with any of its contempo-

No Indiana reader, certainly no Indiana Republican, should be without the Journal. While it is thoroughly and soundly Republican in politics, devoted to the interests of the Republican party. the Journal will not allow its news to be colored by partisan bias, but will give the news of the day without fear or

Owing to the prominence of Indiana in the national administration, the Journal gives particular attention to Washington news, which will be given far more completely than ever before. For this reason, if for no other, no Indiana reader can afford to be without it for the next four years.

In addition to its new features, the Journal regales its readers with the productions of some of the best known literary men and women of the day. Many of the most celebrated magazine writers and authors are contributors to its literary columns, making it a paper for the household and home circle. Special arrangements have been made for features of this character, which will appear in the Journal during the coming year. These appear most largely in the SUNDAY JOURNAL, which is a special edition, and can be subscribed for and received exclusive of the DAILY JOURNAL.

(THE WEEKLY EDITION)

One Dollar per year, has a circulation extending to every county in Indiana and adjacent territory. It is a complete compendium of the news of the week, accompanied by the latest market reports, and special departments devoted to agricultural, horticultural and household topics. It is complete in every department.
